2HRS. Gina Collins/Alanna Hege

Language Development and Communication with Infants/Toddlers: What are they talking about?

It starts with crying, cooing, and babbling, and then you hear it, their first words! Sharing those language milestones moments can be some of our best experiences as infant/toddler teachers. During this workshop you will learn more about the development of language and communication for children birth-three; the research that links relationships to language learning in the first three years; and strategies to support this development. We will also discuss and share ideas about the importance of talking to, singing with, and reading to infants to foster a life time love of language and learning.

2 HRS. Melinda McCullen, Infant/Toddler Specialist

What's in your teaching toolkit?

Everyone needs strategies and materials to help with challenging behavior in young children. This training walks participants through “The Teaching Tools for Young Children with Challenging Behavior” resource known as TTYC. This tool is packed with tips, forms guides and practical resources that promote problem solving skills, friendship development, and social skill instruction.

2 HRS. Renae Beeker, Child Development Behavior Specialist

Infant/Toddler Coaching & Support in the Classroom

Come speak with your local CDS about how we can support you in the classroom. Find out what services, we provide, what services can look like in your classroom, routine based intervention, key elements of coaching, IFSP teaming, and learn about the referral process.

2 HRS. Tiffany Van Newkirk, CDSA Program Manager

Challenging Behaviors: Causes, Prevention, and Intervention Strategies

Understanding the reasons why a child engages in a challenging behavior is crucial to choosing a response which successfully changes that behavior. Once you can identify the meaning of the behavior, you can create a plan to change it. If you know a recipe is too bland, you can add some spice; if all you know is that it’s “not right,” there’s not much you can do about it. Come learn about functional behavior assessments, the three essential parts of any plan for addressing challenging behavior, and a variety of intervention strategies you can use to respond to challenging behavior.

(must attend both trainings in order to get any credit) On 3rd page click on the registration link to register for this training.
.5 CEU Nicole Randall, HSB Behavior Specialist
