CSEFEL – Center on Social/Emotional Foundations for Early Learning

An Overview of the CSEFEL Pyramid Model] Are you hearing the terms "CSEFEL" or "pyramid model" and are not really sure what they mean? Do you wonder how a pyramid relates to challenging behaviors? Are you considering attending a CEU level learning event about social-emotional development but are afraid to make the time commitment until you know a little more? If you answered "yes" to any of these questions, come to this overview of the *CSEFEL Pyramid Model*. During this session, participants will gain a deeper understanding of the importance of healthy social emotional development in young children, factors that influence behaviors, and causes of challenging behaviors in young children. A variety of activities will help participants understand each component of the Pyramid Model and how it can be used to promote healthy social behaviors and prevent challenging behaviors in preschool classrooms. (2 DCDEE contact hours)

.5 CEU or 5 Contact Hours Vicki West/Alanna Hege

Language Development and Communication with Infants/Toddlers: What are they talking about?

It starts with crying, cooing, and babbling, and then you hear it, their first words! Sharing those language milestones moments can be some of our best experiences as infant/toddler teachers. During this workshop you will learn more about the development of language and communication for children birth-three; the research that links relationships to language learning in the first three years; and strategies to support this development. We will also discuss and share ideas about the importance of talking to, singing with, and reading to infants to foster a life time love of language and learning. **2 HRS Melinda McCullen**
