FLIP IT! is a strategy that offers a simple, kind, strength-based, commonsense and effective four step process to address children's day to day challenging behavior. The four steps are embodied in the FLIP mnemonic which stands for F – Feelings, L – Limits, I – Inquiries and P – Prompts. *FLIP IT* is nothing new, but transforms best practice into a strategy that is easy to remember, applicable in a variety of challenging situations and portable. **.5 CEU's Vicki West/Gina Collins** (Materials if money allows)

Toxic Stress and its impact on children - Stress is a fact of life, no matter your age. Some stress is good for us – it keeps us attentive, sharp, productive, and learning. But Toxic Stress affects brain development and learning in young children, and can have long-lasting effects. This session will help participants define stress responses and understand the difference between “tolerable” and “toxic” stress. We'll look at the long-term effects of Toxic Stress and investigate practices for mitigating those effects and promoting resilience in young children.
